Brief introduction:

BILTUFF provide a wide range of Gardening Tools that include Shovels, Spades, Forks, Rakes, Hoes, Hand Tools, Pruners, Shears, Saws Axes, Hatchets, Matchets.

Use a Shifting /Square mouth shovel when moving materials on hard surfaces, such as sand on concrete.

A Digging and shifting/ Round Mouth Shovel is used for shifting materials too, but it doesn't have the same capacity as a shifting/Square mouth shovel. it doesn't have a flat edge for scraping materias off hard surfaces either.

Other Shovels are designed for specific purposes

Long Handles are providiing greater reach and leverage, while Dee handled shovels are for starting holes or close work.

Timber handles are strong and durable, and are more flexible than fiberglass handles.

A Spade is recognised by the flatness of the blade as distinct from a shovel

Digging Tools

Round Mouth Shovel T/Long Handle

GS1445

Explain:

Ideal for general digging work and shoveling.

- Suitable for digging, shifting and loading materials including dry soil and sand.
- Long handle for extra leverage.

Square mouth Shovel long Timber Handle

GS0023

Explain:

Ideal for shoveling soils and sand.

- Lifting and moving heavy loads of rock, soil and other material.
- Designed to transport loose material, such as soil, sand and gravel.

Round Point Shovel L/H

GS1480

Explain:

Ideal for digging, mixing concrete, farm and general farming works.

- An all-purpose shovel suitable for digging, shifting and spreading.
- Powerstep empowers the user to dig with the full force.
- Non slip handle grip and Long timber handle.

Shifting Shovel Long Timber Handle

GS0024

Explain:

Ideal for shifting material as soils and sand.

- General purpose shovel for lifting and moving heavy loads of rock, soil and other material.
- Designed to transport loose material, such as soil and sand etc.

Deep Hole Shovel Long Handle

GS0005

Explain:

Ideal for digging drains, deep holes and general garden work.

- A narrow shovel for digging drains, laying pipe and general shifting and spreading.
- Long Timber Handle for extra leverage.

Shovel SQ. Mouth Short F/Glass Handle

GSS020

Explain:

Ideal for general purpose shovel.

- For shifting, loading and spreading heavy to light materials.
- Short handle for close work.

Damrella Shovel Long Handle

GS0004

Explain:

Ideal for general purpose shovel.

- For digging trenches, clearing holes and mixing material.
- Long handle for extra leverage.

Shifting Shovel Short Timber D-Handle

GSS021

Explain:

Ideal for shovelling soils, sand, ash and wood shavings.

- Lifting and moving of light weight material as grain, ash, wood shavings, soil and other material.
- Short Handle for close work.

ECO -Shovel RD Mouth Long Timber Handle

ECO010

Explain:

Ideal for general purpose shovel.

- Light digging works and shovelling.

ECO - Shovel SQ. Mouth Long Timber Handle

ECO011

Explain:

Ideal for shifting and loading works

- Shifting and loading for light weight of material.

ECO - Shovel Head Round Mouth

ECO014

- Replacement of round mouth shovel head.

ECO - Shovel Handle

ECO012

- Replacement for long timber handle shovel.

Spades

Garden Spade Timber Handle D Grip

GSP022

Explain:
Digging in heavy clays and soils.

- A heavy duty spade suitable for nurseryman, professionals and gardeners.
- D-Grip handle for comfortable and close work.

Digging Spade SS Fiberglass Handle

GSP032

Explain:
Digging and cultivating.

- A General purpose spade for most gardening needs, including digging and turning soils and clay.
- Fiberglass handle for the soft and comfortable grip.

Garden Spade Fiberglass Handle H/D

GFS302

Explain:
Digging and cultivating heavy work

- For contractors grade, comfortable and soft grip with light weight.

All Steel Post Hole Spade D-T/Handle

ASP102

Explain:
Digging post holes.

- It is suitable for digging cable, pipe drain channels fence holes and drains.
- Heavy duty head with tubular steel shaft and D handle.

All Steel Drain Spade With PVC Handle

ASD103

Explain:
Digging drains & post holes.

- For digging narrow types of works such as pipe, cable and laying.

Steel Spade With Teeth(Root Slayer Shovel)

GS0011

Explain:
Ideal for heavy duty works as cutting roots, installing and digging.

- Suitable for breaking up roughly tilled soil in preparation for planting.
- Designed for the professional who need maximum digging and cutting roots and prying power.

Steel Spade Long Handle(For Toughest Work)

GS0012

Explain:
Ideal for heavy duty work.

- Designed for the professionals who needs maximum digging and planting.

Digging Shovel Long Ashwood Handle

GS1460

Explain:
Ideal for digging, gardening, hard rocky soil.

- Easily digging for dry compacted clay and rocky soil.

Contractor Heavy Duty Shovel Fiberglass Long Handle

GS1500

Explain:
Ideal for construction work, industrial grade shovel.

- Heavy gauge steel blade for increased the strength and durability.
- Large steps with heavy duty fiberglass non-slip handle designing for better leverage.

Digging Heavy Duty Shovel Short D-Grip F/glass Handle

GS1520

Explain:
Ideal for construction work, industrial grade, digging, moving soil and plants.

- Heavy gauge steel blade for increased the strength and durability.
- Large steps with heavy duty fiberglass D-handle for solid grip and increased the control.

Cultivating Tools

Garden Fork Timber Handle D-Grip

GFK024

Explain:
Ideal for digging and cultivating.

- A Heavy duty fork designed for professional gardeners, nurseryman.

Digging Stainless Steel Fork Fiberglass Handle

GFK031

Explain:
Ideal for general digging, gardening and turning soils.

- The mirror polished stainless steel head will work to increase strength, durability, rust resistance and minimal soil adhesion.

Garden Fork F/Glass Handle

GFF202

Explain:
Ideal for digging & cultivating.

- Using the fork to dig up stones and separate them from soil, rake your garden beds or turn your mulch pile with a soft grip lightweight fiberglass handle.

All Steel Fork D-T/Handle

ASF202

Explain:
Ideal for heavy duty fork for digging.

- Suitable for breaking up roughly tilled soil in preparation for planting.
- Heavy duty head with tubular steel shaft and D handle.

All Steel Fork with PVC Handle

ASF203

Explain:
Ideal for heavy duty work in garden.

- A general purpose fork used for digging, tilling and breaking up soil ready for further preparation.
- Suitable for professionals, gardeners and nurseryman.

Landscaper's Rake

Garden Rake Steel Handle

Gr1014

Explain:

Ideal for raking soil, stones and leaves.

- A heavy duty rake for clearing and racking soil, stones and leaves.
- The painted flat tines are useful for cultivating scarifying, aerating and making seed furrows.

Garden Rake with T/Handle STD

GRT115

Explain:

Ideal for raking soil, stones and leaves.

- For clearing and racking soil, stones and leaves.
- The painted flat tines are useful for cultivating scarifying, aerating and making seed furrows.

Garden Bow Rake Timber Handle

GRT114

Explain:

Ideal for loosening or breaking up compacted soil.

- Spreading mulch or other material evenly, leveling areas before planting and collecting leaves.

Tin Leaf Rake Timber Handle

GLR122

Explain:

Ideal for light racking of leaves, grass clipping and weeds.

- Suitable for raking leaves, grass and weeds.
- Great for preparing lawns for top dressing and testing establish lawns.

Plastic Leaf Rake with Handle

GLR123

Explain:

Ideal for clearing leaves, grass trimming and other debris.

- Suitable for raking leaves in garden and littering.

Nail Rake Head H/D

GR0014

Explain:

Ideal for clearing & raking soil, stones.

- Heavy duty rake for clearing & raking soil, stones and leaves.
- Useful in heavy or wet soils and is also great spreading dressings.

Plastic Leaf Rake Head

GLR124

Explain:

Ideal for clearing leaves, grass trimming and other debris.

- Use for clearing grass trimming, leaves and debris.
- Flat shape head allows all tines to be contact with ground.

Hoe Head with Handle

GHOE01

Explain:

Ideal for heavy duty clearing and breaking up soil.

- This general purpose hoe is great for heavy duty clearing and cultivating weeds.

Hoe Head

GHOE02

Explain:

Replacement of Hoe Head.

- Ideal for heavy duty clearing and breaking up soil.

Hand Tools

Hand Weeding Trowel PVC Handle GWT201

Explain:
Ideal for digging small holes, planting and weeding, mixing fertilizer and transferring plants to pots.

Hand Weeding Transplanter PVC Handle GWT202

Explain:
Ideal for planting seeds and transplanting seedlings into planters and small beds, also used for dividing and transplanting perennials.

Stainless steel Hand Transplanter SST001

Explain:
Ideal for transplanting plants from pots to the garden.

Stainless steel Hand Spade SSS002

Explain:
Ideal for great for small planting and general garden work.

Hand Weeding Fork PVC Handle GWF204

Explain:
Ideal for designed to be used with small plants or seedlings.

- Weeding and light cultivation between small plants with shallow roots.

Hand Weeding Cultivator PVC Handle GWF206

Explain:
Ideal for weeding and scarifying soil surfaces.

Stainless steel Hand Fork SSh001

Explain:
Ideal for great for general garden duties including weeding and tilling soil.

- Used in garden beds and assists when potting and transplanting seedling, flowers, herbs and vegetables.

Stainless steel Hand Cultivator SSC001

Explain:
Ideal for three prong hand cultivator is ideal for use in heavy soil and imperfect ground.

- It is suitable for cultivating surface soil to a depth of 3 inches.
- The cultivator has been hand crafted and offers traditional quality.

Hedge Shear PVC Handle

GHS103

Explain:

Ideal for general purpose hedge trimming.

Machete Steel

GMS001

Explain:

Ideal for lopping heavy, robust vegetation.

- Suitable slashing thick grasses and overgrown vegetation.
- Also using machetes for other jobs, such as splitting open coconuts, yard work, removing small branches and plants.

Hatchet Steel

GH0001

Explain:

Ideal for splitting small pieces of firewood and chopping small branches from trees.

Hatchet Timber Handle

GH0002

Explain:

Ideal for small wood-cutting projects, clearing small limbs, and camping.

AXE 2KG

GA0002

Explain:

Ideal for general purpose axe for home, farm and camping.

Sickle

GS0001

Explain:

Ideal for slashing grasses and weeds.

- Also used for general purpose for cutting back overgrown vegetation.

Can Knife

GCK001

Explain:

Ideal for cutting sugar cane and slashing grass.
